## EXPERIENCE

**FORTINET (AICTE)** | Network Security Associate I INTERN
April 2024 – June 2024 | Virtual

- **Configured and managed LAN/WAN networks**, gaining
- practical experience with TCP/IP, DNS, DHCP, and routing protocol
- Gained hands-on experience with **network diagnostic tools** like Wireshark and Traceroute to troubleshoot connectivity issues.
- Worked with routers, switches, and access points, enhancing practical skills in **network hardware installation and maintenance**.

**EDUSKILLS ACADEMY (AICTE)** | Fullstack Java Intern
OCT 2024 – DEC 2024 | Virtual

- Completed a **10-week intensive Java training**, focusing on object-oriented programming, core Java concepts, and application development.
- Developed and debugged **Java-based applications**, improving proficiency in IDEs like Eclipse and understanding of JVM internals.
- Developed and debugged **Java-based applications**, improving proficiency in IDEs like Eclipse and understanding

## PROJECTS

**SMS LOGIN - School Management System (PHP)**
September 2024

- **Engineered a full-stack ERP login system** using PHP to streamline school operations and data management.
- **Integrated real-time grade reporting** and analytics for improved academic transparency.
- **Implemented secure login and role-based access control**, ensuring data privacy and user-specific functionality.
- **Automated student record handling**, including personal details, academic performance, and attendance tracking.
- **Boosted administrative efficiency** by digitizing manual processes and centralizing school data.

**Connect4 Game - Core Java Project**
July 2024 | Trainee at Internshala

- **Developed a fully functional Connect4 game** using Core Java as part of Internshala's online training.
- **Built an interactive GUI** using Java Swing/AWT for seamless user experience and gameplay.
- **Tested and debugged game mechanics**, ensuring smooth performance and accurate rule enforcement.
- **Applied object-oriented programming principles** to design game logic, user interaction, and win conditions.

## Job Portal App with AI ATS
May 2025

- Built a **MERN stack** job portal with secure JWT login
- Integrated **AI resume scanner** using NLP for skill-based matching
- Deployed on **Vercel, Render, MongoDB Atlas** for cloud scalability.
- Followed **Rapid Application Development (RAD)** model in a team setup.

## TECHNICAL COLLEGE OF INDIA
April-May 2023 | Varanasi ,UP

- WordPress Development :launched a dynamic college website using WordPress, enhancing online presence and accessibility for students and faculty.
- Designed a mobile-responsive layout to ensure optimal viewing across various devices, increasing engagement and accessibility for users on-the-go.
- Implemented an intuitive navigation system to facilitate easy access to essential information on courses, events, and faculty profiles, improving user experience.

## EDUCATION

**Gyan Ganga College of Technology**
BACHELORE OF TECHNOLOGY IN COMPUTER SCIENCE ENGINERING
Expected July 2026 | Jabalpur,MP

**Ambition Institute of Technology**
Diploma in Computer Science Engineering
11/2021- 05/2023 | Varanasi

## SKILLS
### PROGRAMMING

- JAVA
- HTML 5
- MongoDB
- Sql
- Baisc Python
- PHP
- Java Script
- WORDPRESS
- INTERMEDIATE UI/UX
